Databases: PostgreSQL, MariaDB, MongoDB.

ORMs: TypeORM, Sequelize, Mongoose.

Cloud & DevOps: AWS (Lambda, SNS, S3), Docker, CI/CD

Tools: GitHub, Bitbucket, Jira, Slack, ESLint, SonarQube, Android Studio.

Certifications

- MERN Stack Developer Certificate
- Front-End Development Certificate
- Project Management for Web Developers

Languages

- English: C1 Proficient
- Urdu: Native

Projects

Atomix Logistics:

A logistics platform enabling businesses to manage inventory, orders, and shipping with real-time tracking and B2B/B2C integrations. Features include custom packaging, e-commerce store integration, and improved stock control.

<https://www.atomixlogistics.com>

Technologies: Angular, Node.js, MariaDB, Redis, Stripe, AWS

Rentalytics.ai:

A data-driven platform that extracts and structures millions of property listings from major real estate sources. Enables users to search and filter listings by location, price, and features, delivering up-to-date, detailed property insights for better decision-making.

Technologies: React.js, Node.js, MongoDB, Firebase

EquipX:

An online marketplace connecting equipment owners with businesses and contractors to rent or sell heavy machinery. The platform features customer and admin dashboards, real-time rental tracking, payment processing, and digital agreement management. Designed to streamline operations and improve efficiency for both users and administrators.

equipx.com

Technologies: Next.js, Node.js, MongoDB, Stripe, AWS, Docker

HIS (Healthcare Information System):

A cloud-based platform designed for hospitals to manage staff attendance, leave requests, shift scheduling, and overtime tracking. Supports complex scheduling needs like rotating and night shifts, while providing real-time visibility and automated reporting. Enhances workforce efficiency and reduces manual record-keeping.

Technologies: React.js, React Native, AWS, TypeScript, Docker

Definepedia: Education platform with study resources and tutor support.

Technologies: React.js, AWS, Payment Gateway Integration
